

Hi, there

I'm Ali Hussain Dhuniya & I'm looking for **Frontend Position**.

Currently, I do Frontend Development with JavaScript, React, Redux, Sass, Webpack and Headless CMS.

About Me

I'm a **Frontend Web Developer** from Nepal, Bhairahawa(Rupandehi) who's quick learner and loves to create interactive UI with Frontend Technologies along with best practices which helps to keep code scalable and easy to debug and maintain. To say, I can present my ideas and thinking into design artboard is a plus point.

I have a IT background in Diploma Computer Engineering(3years programs 2017 - 2019) from Lumbini Engineering College, Rupandehi and still I have two back subjects left to clear.

Skills

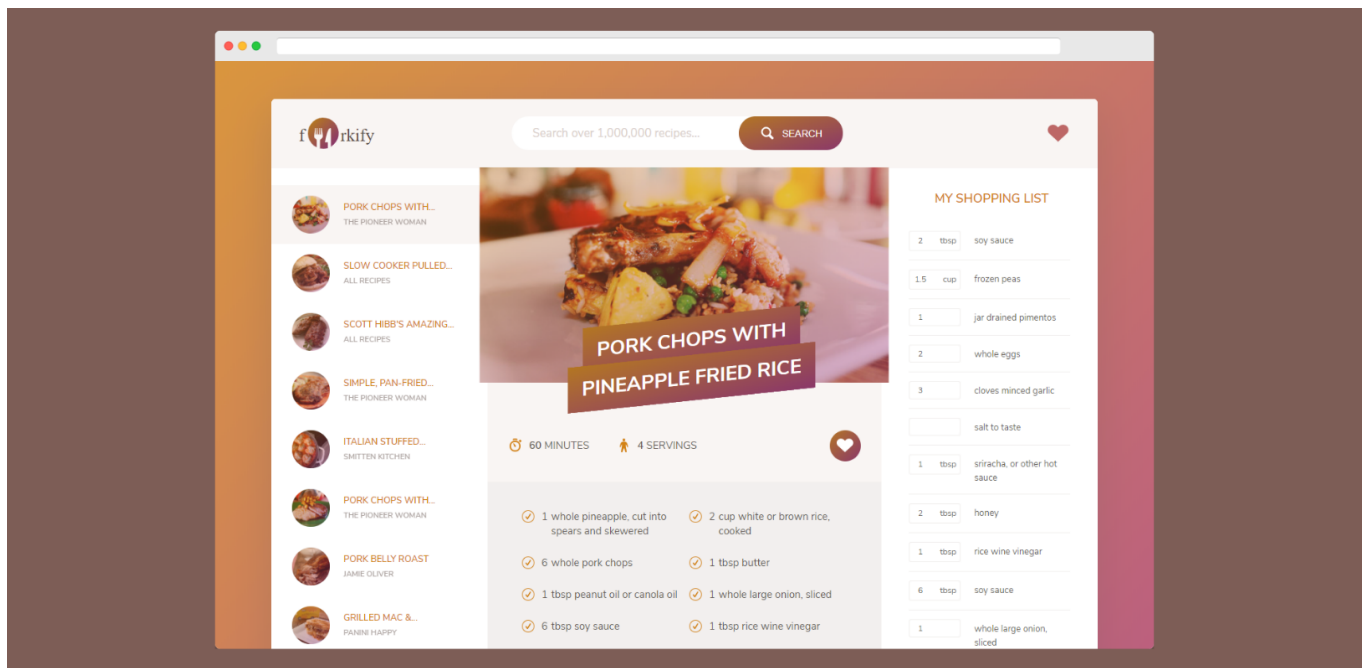

Through my studies, I've gained a solid understanding of computer science and web development concepts. This is what I have currently on the table.

" If you want to be good at something do that thing a lot. "

- **HTML**
- **CSS**
- **SASS**
- **JavaScript ES6**
- **React**
- **Redux**
- **Webpack**
- **REST API**
- **Git**
- **Basic Web Design**
- **Figma**

My motto is “Master the skills which are relevant to you today & develop the skills you need tomorrow”.

Projects

Shopping Cart

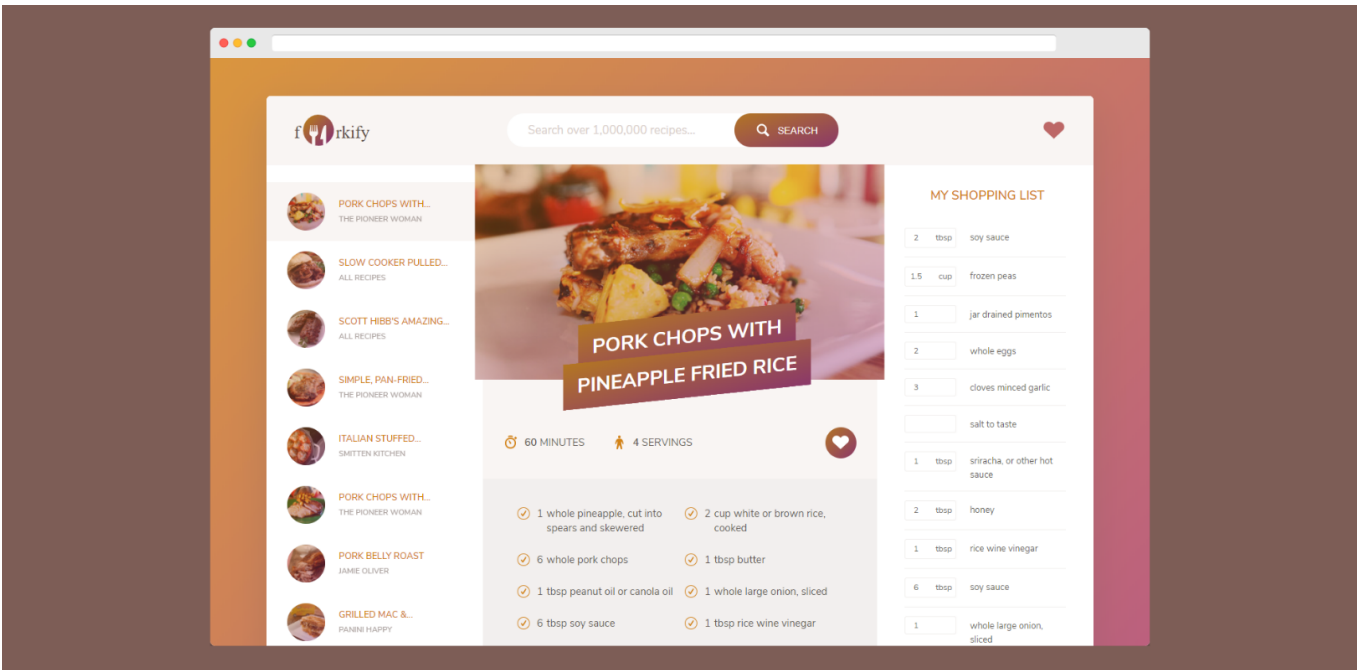

A shopping cart for webshops for prodducts and online services to help shopper business.

#react #redux #strapi-cms
